Shine Acne Care

FACE WASH For Acne & Pimples

It is a natural moisturizer and is greatly valued for its ability to give a healthy glow and balance to the skin. It is effective in the treatment of chronic skin disorders like eczema and acne. It helps acne to subside; it can reduce redness and irritation. It gives it the appearance of a healthy radiance. The smoothing properties can have a diminishing effect on wrinkles and therefore can reduce signs of aging. It can help to protect the skin from UV damage and related influences.

Natural formulations tend to change colour over time, however the product efficacy remains unchanged.
